

**Questionnaire on Hazard Vulnerability
Mansfield University – DRU Mitigation Project**

02/28/2007

Mansfield University is participating in a disaster mitigation program under a Federal Emergency Management Agency (FEMA) grant received by PASSHE. Part of this process is to determine the possible hazards which will cause injury, loss of infrastructure, or interruption of the educational process.

Your assistance in this process is appreciated, and will be used to develop the plan to protect the university assets in an emergency situation.

According to the Disaster Mitigation Act of 2000 (DMA 2000) a community needs to have a hazard mitigation plan that is approved by the Federal Emergency Management Agency (FEMA) in order to be eligible for federal funding. The University is preparing such a plan to help make this a more disaster-resistant university. To participate in the plan you should fill out the following questionnaire and return it to Jim Welch, Environmental Health & Safety at jwelch@mansfield.edu or mail to 102 Brooks Maintenance. For questions please call 662-4906.

Please return the survey by March 30, 2007.

Questionnaire for each Participant:

1. Respondent or group point of contact:

2. What natural and human-caused hazards have the greatest effect on the University?

Questionnaire on Hazard Vulnerability Mansfield University – DRU Mitigation Project

3. What University assets and infrastructure are affected by the hazards listed below and what are some potential solutions?

Hazard	Vulnerable Assets	Potential Mitigation Action
Flash flood	<i>(e.g. Which buildings get flooded?)</i> <hr/> <hr/>	<i>(e.g. stormwater management?)</i> <hr/> <hr/>
Winter storms	<hr/> <hr/>	<hr/> <hr/>
Tornado, high winds	<i>(e.g. Which buildings don't have a basement or backup power?)</i> <hr/> <hr/>	<i>(e.g. construct storm shelter?)</i> <hr/> <hr/>
Pandemic	<hr/> <hr/>	<hr/> <hr/>
Hazardous material release	<hr/> <hr/>	<i>(e.g. shelter in place?)</i> <hr/> <hr/>
Other hazards	<hr/> <hr/>	<hr/> <hr/>
